OF EMERGENCY SERVICES

SITUATION SUMMARY

Lost Hill Oil Field, Kern County

At 1937 hours on 02/23/2016 the California State Warning Center (CSWC) was contacted by the Department of Oil and Gas (DOG) Bakersfield Branch. DOG was alerted to a fissure that has formed in the Lost Hill Oil Field in Kern County. The closest cross street to the Oil Field is Holloway and HWY 46.

At 1352 hours on 02/24/2016 DOG Bakersfield Branch advised:

- Kern County Environmental Health responded back to the incident location and advised there is no immediate risk to the health or environment and no release of hydrocarbons, gas or steam.
- CHP and Caltrans were also present at the site today and confirmed that SR46 is not impacted and no damage is present, however, they will both continue to monitor.
- State Geologist John Parish and DOG have advised this is not related to the 02/23/16 EQ event in Kern County. The fissure was present prior to the event. The fissure history and presence will continue to be investigated.
- DOG will conduct inspections on wells tomorrow that are in the area. The wells were previously inspected in October 2015.
- DOG has restricted the area with temporary fencing with future operations to construct a permanent structure.
- There are no requests for assistance or unmet needs at this time.

Weather of Concern

Northern California

- Breaking waves between 17 and 20 feet will impact most of the Northern California coast today.

Southern California

- A large, long period west swell will create dangerous wave conditions along the beaches Wednesday morning through Thursday evening. Surf of 10 to 18 feet is expected for west facing beaches along the Central and Southern California Coast.

Days 1-3 Precipitation Forecast

Precipitation (inches)

Thursday

Friday

Saturday

Light-moderate rainfall northwest CA
Friday into Saturday; light snow possible
northern Sierra Nevada.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

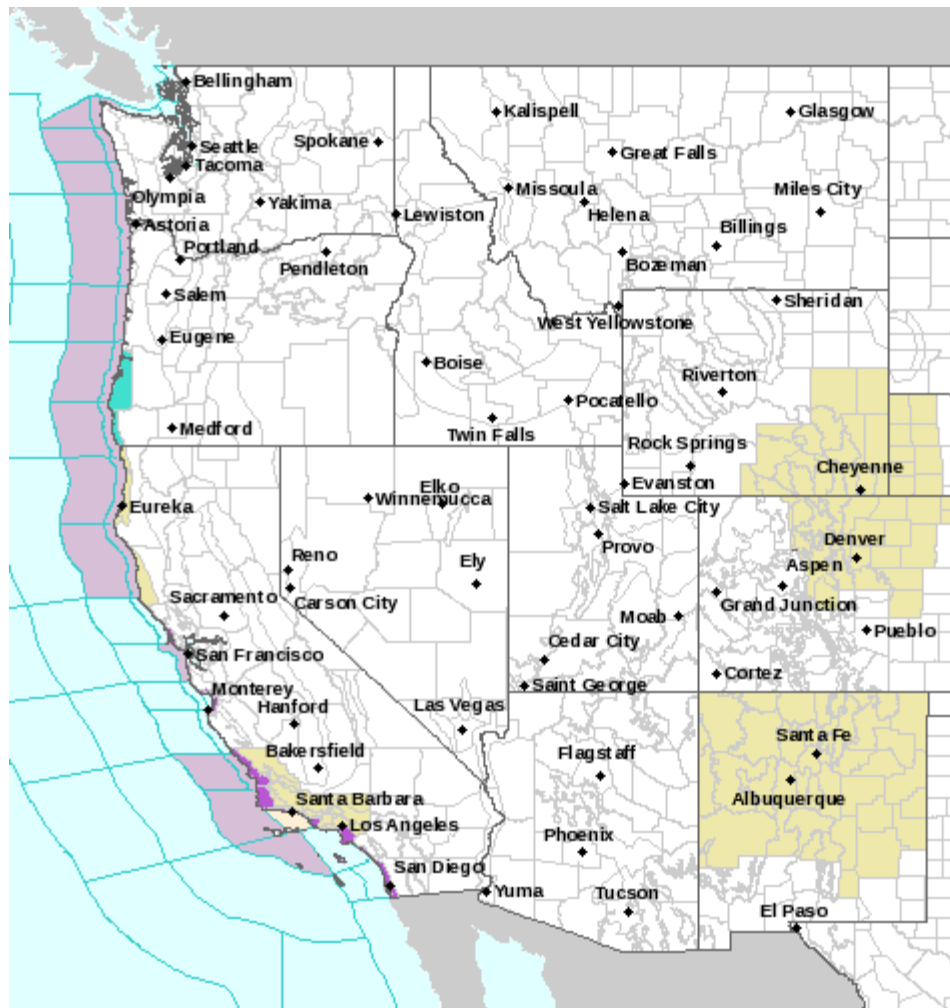

A high pressure ridge will be overhead through Thursday. Warm and dry conditions will prevail with many locations reaching 10-15 degrees above normal in the afternoons. A weak offshore frontal system has run up against the high pressure ridge and is dissipating. Scattered mid and high clouds from this system have moved over Northern California, but precipitation is not expected. Winds will be light through Thursday and strong inversions will be common in valleys and canyons. A stronger system will pass over Northern California late on Friday and cause light to locally moderate precipitation. Northern California Mountains may see up to 0.75 inches of rainfall, with lighter amounts as far south as Santa Rosa to Truckee. Snow levels will be around 5000 feet. Another system will move through late Sunday and Monday with similar precipitation, followed by a return to warm and dry conditions into Wednesday. By late next Wednesday a third system is expected to move through with colder air and more precipitation.

SOUTHERN CALIFORNIA

A strong ridge of high pressure over Southern California will cause temperatures to remain warm through Friday, with 60s to low 70s across the mountains and mid 70s to mid 80s in the valleys. Minimum humidity will stay in the single digits and teens away from the San Joaquin Valley through Friday. Local Northeast to East winds of 10 to 20 mph with gusts to 35 mph will occur across the mountains and below the canyons and passes of Southern California through early this afternoon. Temperatures will cool around 5 degrees and minimum humidity will increase to 12% to 25% away from the Central Valley and coastal areas this weekend as the ridge of high pressure weakens. Above normal temperatures and very low humidity will return to the region early next week as the ridge of high pressure strengthens again. Gusty offshore winds will occur across portions of Southern California Monday night through Wednesday morning.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 63 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2016-LAW-21584, 1545 HOURS, 02/21/2016:** El Dorado County SAR requested five HRD K9 teams to search near South Lake Tahoe for a missing 69 y/o female who has been missing for five days. The MP is not in good health. Her vehicle was located at a remote parking area. Teams are to meet at EDSO in South Lake Tahoe at 0800. Cal OES K9 coordinator is arranging for the K9 teams. **UPDATE: 1915 hours, 02/24/2016,** [EDSO is requesting Placer County Nordic SAR team to assist with segmented search and probing.](#) [LDO is coordinating.](#) [Placer County Nordic SAR, Sgt. Hunt was advised and will attempt to fill the request.](#) **Mission Ongoing**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
